

AL-SAWAR
INDUSTRIES S.A.R.L

Building **AFRICA'S FUTURE**,
One Industry at a Time

COMPANY *PROFILE*

About the Company

Al-Sawar Industries (A.S.I.) is a Limited Liability Company (SARL) established under the OHADA Uniform Act and headquartered in Lubumbashi, DRC.

We are more than an energy supplier — we are Africa's industrial partner of choice. From fuel and chemicals to logistics, lubricants, cement, water, automotive solutions, and pharmaceuticals, we serve as the backbone that keeps Africa's fastest-growing economies moving.

Our operations extend across the DRC, Zambia, Tanzania, and Nigeria — and with each year, we expand into new industries and regions. Whether it's delivering petroleum to mines in the Copperbelt, supplying industrial chemicals to heavy industry, powering infrastructure with cement, or strengthening healthcare access through pharmaceutical manufacturing, Al-Sawar Industries is committed to growth, resilience, and impact.

What sets us apart is a blend of operational discipline, compliance leadership, and real-time control. Through partnerships with refineries, depots, manufacturers, and an expanding logistics fleet, we ensure every delivery and project is safe, compliant, and on time — without compromise.

Our **Vision**

To be *Africa's* most trusted and diversified industrial group, delivering essential solutions that power *economies, improve lives, and build sustainable futures.*

Our Mission

Ensure uninterrupted supply and production across all industries we serve.

Uphold world-class safety, environmental, and operational standards.

Build long-term partnerships based on trust, performance, and measurable value.

Diversify strategically every year to meet Africa's growing industrial and consumer needs.

Core Values

Integrity

Our foundation in every industry we serve.

Safety First

Protecting people, communities, and the environment.

Customer Focus

Delivering real value to clients and partners.

Sustainability

Investing responsibly for Africa's future.

Innovation

Expanding boundaries and creating new opportunities.

Our Industries & Services

ALS Energies

Bulk Petrol (PMS) and Diesel (AGO) distribution, compliant with international standards.

ALS Chemicals

Supply of essential inputs tailored for mining, manufacturing, and heavy industries.

ALS Pharmaceuticals

Production of general medicines and antibiotics to support Africa's healthcare independence.

ALS Transport

Secure, efficient, and real-time goods movement with a growing fleet of 50+ trucks.

ALS Lubricants

ALS Lubricants brand serving vehicles, equipment, and industrial clients.

ALS Bottled Water

Delivering premium, mineral-enriched water to underserved regions across Africa, ensuring healthier, more energized everyday.

Logistics & Infrastructure

For us, logistics is more than trucks and depots — *it's the backbone of trust.*

- *50+ calibrated trucks* and tankers moving across borders with precision.
- Priority access to refineries and depots that guarantees uninterrupted supply.
- Every load tracked in real time — every kilometre, every litre, fully visible to our clients.
- Rapid-response teams on call 24/7 because critical industries cannot afford downtime.

This isn't just delivery. It's assurance — from source to site, without compromise.

Health, Safety & Environment (HSE)

Safety is not a department at ALS Industries
— *it's a non-negotiable culture.*

- A *zero-incident mindset*, reinforced daily through training and audits.
- Systems that go *beyond compliance*, exceeding DGDA, OCC, and environmental requirements.
- Strict protocols to prevent emissions and spills — protecting communities and ecosystems.
- Maintenance standards that ensure equipment, people, and environments remain safe.

For us, protecting people and the planet is as essential as delivering to our clients.

The Industries We Power

We don't just serve clients — ***we fuel entire value chains.***

- ***Mines*** extracting the minerals that drive global industries.
- ***Manufacturers*** producing goods for local and international markets.
- ***Infrastructure*** projects building the future of African cities.
- ***Governments*** delivering services and development.
- ***Transport and maritime fleets*** connecting people and trade.
- ***Healthcare distributors*** making medicines accessible

This isn't just delivery. It's assurance — from source to site, without compromise.

A Message from **Our Chairman**

“

For over 18 years, I have dedicated myself to building ALS step by step. What began as a small vision has grown into a family of companies in energy, lubricants, and logistics — with ongoing projects expanding into mining, automotive, water, education, and pharmaceuticals.

My goal is to see 100,000 families working with ALS, helping Africa rise and making our brand recognized around the world. For me, success is not just about numbers — it is about creating opportunities, strengthening industries, and building trust.

At ALS, we are building Africa's future one industry at a time — a future shaped by hard work, focus, consistency, integrity, and loyalty.

ALS is more than a business — it is a movement driven by ambition and by the belief that Africa's brightest days lie ahead. Together, we will turn challenges into opportunities and build a legacy of growth for generations to come.

I invite you all to join us on this journey.

”
