

AL-SAVAR

ENERGIES ZAMBIA LIMITED

Where Trust Meets
EXCELLENCE

Company **Profile**

About The Company

AL SAWAR ENERGIES ZAMBIA LIMITED is more than a fuel distributor — we are a growing force in the energy landscape of Southern Africa.

From our strategic presence in Zambia, backed by a strong operational foundation in the Democratic Republic of Congo and supported by regional operations in Tanzania and Dubai, we deliver high-quality Petrol (PMS) and Diesel (AGO) to the nation's most demanding industries.

With a rapidly expanding logistics network, reliable supply partnerships, and an unshakable commitment to excellence, we are positioned to power mines, factories, transport fleets, and retail networks across Zambia.

As part of the Al-Sawar Group's broader footprint across Zambia, DRC, Tanzania, Uganda, and Dubai — along with a pharmaceutical manufacturing venture in Nigeria — we bring proven expertise, operational discipline, and a reputation built on reliability, transparency, and strict compliance with national and international petroleum handling standards. Every litre we deliver is a promise — of performance, safety, and progress.

Our **Vision**

To be Southern Africa's most trusted, efficient, and forward-thinking fuel distribution powerhouse — delivering energy solutions that are safe,

Our Mission

Guarantee uninterrupted fuel supply through a distribution network that operates 24/7, 365 days a year.

Set the benchmark for safety, environmental stewardship, and operational excellence in the region.

Forge lasting partnerships built on trust, performance, and measurable value.

Core Values

Integrity

Every deal is transparent, every delivery is honest.

Safety First

Zero-compromise approach to people and environment.

Customer Focus

Our clients' needs shape our operations.

Sustainability

Growth that protects the future.

Innovation

Adapting and improving with every challenge.

Our Services

Bulk supply of Petrol (PMS) and Diesel (AGO)

Fleet fuel management programs to control cost and ensure quality

24/7 delivery and technical support across Zambia and the region

Distribution for industrial, commercial, and retail clients

Secure fuel storage and handling solutions

Logistics & Infrastructure

*At **ALS Energy**, logistics isn't just a department — it's our competitive advantage.*

A well-structured and expanding logistics network supported by **trusted transport partners**, ensuring reliable and **efficient fuel movement across Zambia.**

Fuel tracking from loading bay to delivery point — giving **clients complete transparency.**

Strong supply access through established hospitality agreements with leading depots and storage facilities across the region, supported by our **operational presence and integrated regional network.**

Rapid-response delivery teams on call 24/7, ensuring critical industries never pause for fuel.

Major Clients & Industries We Power

Our fuels are positioned to support the growth of **Zambia's key sectors:**

- Mining companies driving the nation's economic backbone.
- Manufacturers supporting domestic production and exports
- Transport and logistics fleets enabling regional trade.
- Retail fuel stations serving communities across Zambia.
- Every litre we deliver fuels livelihoods, industries, and national growth.

Health, Safety & Environment (HSE)

Safety isn't a checkbox
— *it's our culture.*

Zero-incident policy maintained through continuous training and operational discipline.

Real-time monitoring for emissions, spillage prevention, and environmental compliance.

Protecting lives and the environment is as important to us as delivering fuel.

Strict adherence to Zambian regulatory standards and environmental requirements.

Preventive maintenance schedules that keep both people and products safe.

Leadership That Drives Results

Behind every operation is a leadership team with deep experience across energy, logistics, and business development:

Santosh Pote
